ISSN: 1680-2594 (print)

Instruction to authors

Aims and scope

Iraqi journal of Pharmacy is a scientific and refereed journal published by the College of Pharmacy, University of Mosul, Mosul, Iraq. It publishes in English original and distinguished research articles, short communications, case reports and reviews in all pharmaceutical sciences and clinical subjects that are of interest to practicing pharmacists.

shall be considered for only that they are neither oocuiTent ~~under~~ consideration by any nor have ~~journal~~ been published cbewhere.

Manuscripts are subjected to peer review to their scientific merit. Accepted articles become the property of the Irq J Pharm. The journal is published two times a year.

Manuscript submission

Manuscripts must be submitted by one of die authors designed as the author who has the full of the co-authors . for the manuscript during

- ihniission, manuscript is submitted
- K Editorial secretary, Irq J Pharm, CoDege of Pharmacy, University, of Mosul, Iraq. Submission of the manuscript can be send by e-mail attachments to iraqiournalph(q).yahoo.com

Manuscript preparation

Manuscript should be computer typed in Microsoft World using a 12-point Time New roman font, single spaced throughout the text, including legend of figures, tables, and references. Using A4 paper for typing. The typed

area should be 15 cm width * 24 cm height. All pages, including the title page, must be numbered. General instruction on how to prepare a manuscript are given in Uniform Requirements for Manuscript Submitted to Biochemical Journals issued by the International Committee of Medical Journal editors ([htt://www.icmje.org](http://www.icmje.org)). The manuscript, subdivided by one line-space between headings, should be organized as follows

Title Page

The first page of the manuscript includes the title (capitalized only the first letter) of the article, followed by one line space and the names of the authors (no degree) and their addresses for correspondence, including the e-mail of the corresponding author. The first letter of each name and main word should be capitalized. The title, authors name should be centered on the width of the typing area.

Abstract

The second page contains the abstract which should be not more than 200 words presents the main finding . The abstract is divided in background, methods, results, conclusion. A list of 3-5 keywords in English and not included in the title should be typed below the abstract. An Arabic abstract is required. It should follow English abstract.

Introduction

Describes briefly the background of the investigation with updated information and states the aim of the study.

Materials and Methods

Describe sampling procedure, apparatus, methods of study and statistical analysis. Support the techniques and methods used with references. Specify the computer software analysis and define statistical terms and abbreviations, and symbols applied.

Results

Present the results and their significance clearly. Graphs and tables should be self explanatory. Do not repeat in figures or in the text the data presented in tables. Tables and figures should be numbered by Arabic order of their mention in the text.

Discussion

Deals with review and interpretations of the results, and supported by relevant updated references. Repetition of data should be avoided. It should end with brief conclusions. In short communications, results and discussion may be combined.

Acknowledgements

Include the sponsor, funding agency, provider of major facilities and the names of those who contributed substantially to the work but do not fulfill the requirements for the authorship.

References

References to literature should be numbered (without brackets) consecutively in the text in the order in which they are first mentioned and listed at the end of the manuscript. Title of the journals should be abbreviated according to the list of journals indexed for Medline (<ftp://nlmpubs.nlm.nih.gov/online/journals/ljiweb.pdf>). Personal communications or unpublished data should be

mentioned in the text, but not included in the list of references. **Examples**

Journal article: Al-chalabi BM, Thanoon IAJ, Ahmed FA. Potential effects of olanzapine on total antioxidant status and lipid peroxidation in schizophrenic patients. *Neuropsychobiology* 2009;59:8-11. (for 3 authors and less).

Martins NR, Petronilho FC, Gomes KM, et al. Antipsychotic-induced oxidative stress in rat brain. *Neurotox Res* 2008;13:63-69. (for more than three authors).

Book: Bennett PN, Brown MJ. *Clinical pharmacology* 10th ed. Oxford: Churchill Livingstone; 2008. 694 p.

Chapter in a book: Chabala JC, Pettes CL. Chemistry of antiprotozoal agents. In: Campbell WC, Rew R, editors. *Chemotherapy of parasitic diseases*. New York: Plenum Press; 1986. P. 25-85.

Master thesis: Roguskie JM. The role of *Pseudomonas aeruginosa* 1244 pilin glycan in virulence (master thesis). Pittsburgh (PA): Duquesne University; 2005. 11ip.

Internet webpage: AMA: helping doctors help patients [internet]. Chicago: American Medical Association; c1995-2007 [cited 2007 Feb 22] Available from: <http://www.Ama-assn.org/>.
